THOR'S HELMET

1. Print out the template on regular paper or cardstock and cut out the pieces.

2. Starting with the front of the helmet, make all folds along dotted lines away from you. Using glue or double-sided tape, secure all tabs to their corrosponding pieces.

3. Three helmet straps have been provided. Cut out two straps, and attach one to each side of the helmet, aligning with the black borders at the top and bottom of the straps with the corresponding black borders on the front of the helmet. Wrap the straps around your head to determine the exact size of the helmet. Secure the straps when you're satisfied with the fit. You may use the third strap if two are insufficient.

4. Fold each wing in half along the dotted line and secure so that the design is two sided. Ailgn each helmet wing with its corresponding shaded semicircle and secure with glue or tape.

IRON MAN'S HELMET

1. Print out the template on regular paper or cardstock and cut out the pieces.

2. Cut out the eye holes on the front of the mask, and make folds along all dotted lines. Using glue or double-sided tape, secure each tab to its corresponding piece. Punch holes on the sides of the mask where indicated.

3. Secure tabs on the right side of the helmet to their corresponding pieces.

4. Secure tabs on the left side of the helmet to the right side of the helmet to make the piece symmetrical.

5. Align the top of the helmet with the shaded area on the face mask, and secure with glue or double-sided tape.

6. Tie a string to each hole in the mask, and tie at the back of your head to secure Iron Man's helmet.

7. Using double sided tape or a pin, secure the chest piece to your clothing.

CAP AMERICA MASK

1. Print the Captain America Mask on card stock. Cut out the mask, including the wings and the eye holes. Be sure to cut along the solid blue lines on one side of each tab.

2. Make all folds along the dashed lines away from you.

3. Using glue or double-sided tape, secure each tab to the back of the mask.

4 Fold each wing in half along the dashed line. Glue or tape the sides together so the wing design is double-sided. Glue or tape each wing to the sides of the mask where it is marked with a light blue rectangle. The wings should look like upside down hockey sticks, the wider part on top pointing toward the back of the mask.

5. Punch holes where indicated on each side of the mask. Tie a string to each hole, and secure it to your face by tying the two strings together at the backof your head.
